Each chapter is illustrated with Marley's original doodle-drawings and is subtly colour coded, so you can flick through and find exactly what you're looking for right now, when you need it. There is evidence-based information to support everyone and provide a reliable source of knowledge about important things like when to call your care provider, getting baby into an optimal position for birth, how to approach the 'fourth trimester' (the three months after the birth), and even where to find the shower in a postnatal ward.
