Coherency Management Sep 17 2021 The book introduces the idea of Coherency Management, and asserts that this is the primary outcome goal of an enterprise's architecture. With submissions from over 30 authors and co-authors, the book reinforces the idea that EA is being practiced in an ever-increasing variety of circumstances - from the tactical to the strategic, from the technical to the political, and with governance that ranges from sell to tell. The characteristics, usages, value statements, frameworks, rules, tools and countless other attributes of EA seem to be anything but orderly, definable, classifiable, and understandable as might be hoped given heritage of EA and the famous framework and seminal article on the subject by John Zachman over two decades ago. Notably, EA is viewed as an Enterprise Design and Management approach, adopted to build better enterprises, rather than a IT Design and Management approach limited to build better systems. *Women in the Military* Jun 14 2021

The Service of Wisdom Oct 07 2020 Dominican life is a service of Wisdom. Such is the teaching of the Italian Dominican Father Raymund Spiazzi. Following the principles of Thomas Aquinas, and drawing upon other Dominican saints as well, Father Spiazzi explains his teaching over the course of many short conferences. Saint Dominic received the grace of a special love and service of wisdom and a charism to “communicate wisdom with joy.” Saint Dominic also organized a form of religious life—communal, liturgical, and apostolic—so that others might share in the same grace, charism, and service. The whole form of life established by Saint Dominic for his order has its *raison d’être* in the love and service of truth—the incarnate wisdom. The followers of Saint Dominic are called to cultivate wisdom in all of its forms—philosophical, theological, and mystical. The regular life of prayer and study, liturgy and fraternity cultivates the manifold wisdom of God in our souls. Father Spiazzi illuminates how. He discusses the theological virtues, intellectual and moral virtues, the gifts and fruits of the Spirit, the Beatitudes, the sacraments, and much more. All of the elements of Dominican life together give harmonious unity to the mind and the interior life by the grace of the Holy Spirit. Contemplative activity informs our actions, and the Holy Spirit also makes us effective servants, friends, lovers, spouses, worshipers, preachers, and teachers of the eternal wisdom of God. Christ, wisdom, and eternal truth, become the reason for living and working for the salvation of souls.

The Experience Economy Jul 04 2020 You are what you charge for. And if you're competing solely on the basis of price, then you've been commoditized, offering little or no true differentiation. What would your customers really value? Better yet, for what would they pay a premium? Experiences. The curtain is about to rise, say Pine Gilmore, on the Experience Economy, a new economic

era in which every business is a stage, and companies must design memorable events for which they charge admission. With *The Experience Economy*, Pine Gilmore explore how successful companies-using goods as props and services as the stage-create experiences that engage customers in an inherently personal way. Why does a cup of coffee cost more at a trendy cafe than it does at the corner diner or when brewed at home? It's the value that the experience holds for the individual that determines the worth of the offering and the work of the business. From online communities to airport parking, the authors draw from a rich and varied mix of examples that showcase businesses in the midst of creating engaging experiences for both consumers and corporate customers. The Experience Economy marks the debut of an insightful, highly original, and yet eminently practical approach for companies to script and stage compelling experiences. In doing so, all workers become actors, intentionally creating specific effects for their customers. And it's the experiences they stage that create memorable-and lasting-impressions that ultimately create transformations within individuals. Make no mistake, say Pine Gilmore: goods and services are no longer enough. Experiences are the foundation for future economic growth, and *The Experience Economy* is the playbook from which managers can begin to direct new performances.

Chinese Films in Focus II Feb 08 2021 Chinese cinema continues to go from strength to strength. After art-house hits like Chen Kaige's *Yellow Earth* (1984) and Wong Kar-wai's *In the Mood for Love* (2000), the Oscar-winning success of Ang Lee's *Crouching Tiger Hidden Dragon* (2000) disproved the old myth that subtitled films could not succeed at the multiplex. *Chinese Films in Focus II* updates and expands the original *Chinese Films in Focus: 25 New Takes* with fourteen brand new essays, to offer thirty-four fresh and insightful readings of key individual films. The new edition addresses films from mainland China, Taiwan, Hong Kong and other parts of the Chinese diaspora and the historical coverage ranges from the 1930s to the present. The essays, by leading authorities on Chinese cinema as well as up-and-coming scholars, are concise, accessible, rich, and on the cutting edge of current research. Each contributor outlines existing writing and presents an original perspective on the film, making this volume a rich resource for classroom use, scholarly research and general reading for anyone wanting to understand more about the historical development and rich variety of Chinese cinema.
