"...a highly recommended read for any Porsche or travel fan." - PurelyPorsche.*Survival of the Quickest - Across Africa. In a Porsche.15,000 miles. 26 countries. One unforgettable adventure.*In autumn 2008, Laura Reddin and Ben Coombs set off to drive from England to South Africa in a classic Porsche 944. No such journey had ever been made before, and everyone said it was impossible. They said the two young adventurers would end up broken down in the middle of some baking desert, or be robbed at knife-point. They were right on both counts. But what they couldn't predict was that through the highs and the lows, the breakdowns and the bureaucracy, the red tape and the robberies, Laura and Ben would grow closer than they could imagine, and find romance amid Africa's epic vistas.From the edgy streets of Syria to the rutted tracks of Kenya, via the war-torn sands of the Sudan, *Survival of the Quickest* is the first book to describe the absolute cutting edge of adventurous road trips in gritty, honest detail. At turns inspiring, absorbing and thought-provoking, it shows just what can be achieved with a tough old car, a well-worn passport and a whole heap of determination. Tom Hand shares his decades of experience rebuilding TorqueFlite transmissions with chapters dedicated to troubleshooting, disassembly and reassembly, performance modifications, post-installation procedures, and the most thorough source guide offered in print, ever. The author walks you through the TorqueFlite rebuild with color photos showcasing step-by-step procedures with highly detailed, easy-to-follow text. Kill the Company Oct 09 2020 In the ever-changing world of business, we've arrived at a point where process has trumped culture, where the race toward efficiency has left us unable to reach our potential. Stuck in the land of status quo, we've forgotten how to think. The very structures put in place to help businesses grow are now holding us back;; it's time to Kill the Company. This book is a call to arms: to start a revolution in how we think and work. But instead of more one-size-fits-all change initiatives forced upon employees, we need to embrace small changes that create ripple effects throughout the organization. Lisa Bodell urges companies to move from "Zombies, Inc." to "Think, Inc." Thinking can no longer be exclusive to the creative team or lead strategists. A culture of curiosity must be fostered among the ranks to shake up our standard practices, from unproductive meetings to go-nowhere strategic planning. This revolution can and will awaken our ability to think, and ultimately, to innovate and grow.
