*From the Boardroom to the Bathroom* May 19 2021 From the Boardroom to the Bathroom is the definitive humor book about the 20-something-year-old male. Written by Jason Brenner, whose work has been published in several metropolitan daily newspapers, *From the Boardroom to the Bathroom* discusses the crucial parts of a young male's life: sex, beer, and gambling; yet it doesn't neglect the completely secondary and unimportant parts: relationships, working, and family. From discussing the lump he found on his left testicle to recounting the awkwardness he felt at his high school reunion to describing the proper way to use a corporate men's room, Brenner pulls no punches as he explains what goes through the mind of a typical 24 year-old male. No topic is left untouched: his relationship with his girlfriend.

From the Boardroom to the Bathroom is a must-read for anyone who wants to learn how to communicate with a 20-something-year-old male...or for anyone who wants to read the pathetically honest accounts of Brenner's humiliating life.

Research and Reform May 07

2020 The first biologist to establish the study of genetics in a Canadian university. W.P.

Thompson was a passionate advocate of science education whose impact extended far beyond his home province of Saskatchewan. In *Research and Reform*, Richard Rempel brings to light the life, times, and legacy of a brilliant and influential geneticist. Born and raised in rural Ontario, Thompson's thirst for knowledge took him from a largely self-educated youth to undergraduate and graduate studies at the University of Toronto and Harvard, respectively, culminating in a successful career in the field of cytogenetics. The discoveries Thompson made working with wheat chromosomes spread across the country and brought him considerable renown within the scientific community. *Research and Reform* documents Thompson's revolutionary attempts to create a wheat hybrid resistant to fungal leaf rust - efforts supported by the Winnipeg Rust Laboratory, the National Research Council, and the Federal Department of Agriculture. Rempel also

documents the sweeping curriculum reforms Thompson introduced to the University of Saskatchewan, first as dean of arts and sciences and later as president. Thompson's presidency demonstrated for the first time the depth of the constructive and cordial relationship that existed between Tommy Douglas's Cooperative Commonwealth Federation government and the university. Shedding light on Thompson's later years, Rempel describes how he became a key figure in the planning and establishment of Saskatchewan's 1962 Medicare legislation. An invaluable addition to the history of science and medicine in Canada, *Research and Reform* restores a Canadian scientist and educator to his rightful place in history.

Farewell to the Party of Lincoln

Nov 05 2022 This book examines a remarkable political phenomenon--the dramatic shift of black voters from the Republican to the Democratic party in the 1930s, a shift all the more striking in light of the Democrats' indifference to racial concerns. Nancy J. Weiss shows that blacks became Democrats in response to the economic benefits of the New Deal and that they voted for Franklin Roosevelt in spite of the New Deal's lack of a substantive record on race. By their support for FDR blacks forged a political commitment to the Democratic party that has lasted to our own time. The last group to join the New Deal coalition, they have been the group that remained the most loyal to the Democratic party. This book explains the sources of their commitment in the 1930s. It stresses the central role of economic concerns in

[Return to Africa](#) Aug 22 2021 Real Family is a fictional story with many complex issues interlocked throughout the journey. The foundation of the

story deals with relationships. It may be father to son, sister to brother, teacher to student, friends to family, friends to acquaintances, lovers to partners and rivals, colleagues to boss It also could be relationships lost, missed, or by chance. Everyone needs someone to rely on for unconditional love and support. People may learn the hard way that those people are our Real Family. Stop and reflect on the relationships in your life and who has been there for you regardless of time. It is a curious thing to see how people relate to one another and the circumstances that if a bit different may have a different outcome. But life does not allow us to change a decision made. We may be able to continually affect the circumstance but it can never be undone. Lessons in life are what define who we are as a person. It is never the soul individual who is responsible for who they are, people that we don't control may affect who we become.

**Doing Style** Jan 27 2022 In

Doing Style, Constantine V.

Nakassis explores the world of youth and mass media in South India, where what Tamil youth call “style” anchors their day-to-day lives and media worlds. Through intimate ethnographic descriptions of college life in Tamil Nadu, Nakassis explores the complex ways that acts and objects of style such as brand fashion, English slang, and film representations express the multiple desires and anxieties of this generation, who live in the shadow of the promise of global modernity. As Nakassis shows, while signs of the global, modern world are everywhere in post-liberalization India, for most of these young people this world is still very distant—a paradox that results in youth’s profound sense of being in between. This in-betweenness manifests itself in the ambivalent quality of style, the ways in which stylish objects are necessarily marked as counterfeit, mixed, or ironical. In order to show how this in-betweenness

materializes in particular media, Nakassis explores the entanglements between youth peer groups and the sites where such stylish media objects are produced, arguing that these entanglements deeply condition the production and circulation of the media objects themselves. The result is an important and timely look at the tremendous forces of youth culture, globalization, and mass media as they interact in the vibrancy of a rapidly changing India.

### **Bill Clinton: An American Journey**

Aug 10 2020 Bill Clinton, forty-second president of the United States, is the quintessential baby boomer: on the one hand blessed with a near-genius IQ, on the other, beset by character flaws that made his presidency a veritable soap opera of high ideals, distressing incompetence, model financial stewardship, and domestic misbehavior. In an era of cultural civil war, the Clinton administration fed the public an almost daily diet of scandal and misfortune. Who is Bill Clinton, though, and how did this baby-boom saga begin? Clinton's upbringing in Arkansas and his student years at Georgetown, Oxford, and Yale universities help us to see his life not only as a personal story but as the story of modern America. Behind the closed doors of the house on the hill above Park Avenue in Hot Springs, the struggle

between Clinton's stepfather and mother became ultimately unbearable, causing Virginia to move out and divorce Roger Clinton. Dreading confrontation, Bill Clinton excelled in almost every field save athletics. But the fabled success of the scholarship boy would be marred by the decisions he came to make regarding Vietnam and military service—choices that haunt him to this day. We watch with a mixture of alarm, fascination, and awe as Bill Clinton does so much that is right—and so much that is wrong. He sets his cap for the star student at Yale, young Hillary Rodham, seducing her with his dreams of a better America and an aw-shucks grin. Wherever he goes, he charms and disarms—young and old, men and women...and more women. He becomes a law professor straight out of college; he contests a congressional election in his twenties—and almost wins it. He becomes attorney general of his state and within two years is set to become the youngest-ever governor of

Arkansas, at only thirty-two. Yet, always, there is a curse, a drive toward personal self-destruction—and with that the destruction of all those who are helping him on his legendary path. His affair with Gennifer Flowers strains his marriage and later nearly scuttles his bid for the presidency. He is thrown out of the governor's office after only one term and suffers a life-shaking crisis of confidence. Though with the stalwart help of a female chief of staff he regains his crown, it is clear that Bill Clinton's charismatic career is a ceaseless tightrope walk above the forces that threaten to pull him down—the most potent of them residing in his own being. Imbued with sympathy, deep intelligence, and the storyteller's art, this extraordinary biography helps us, at last, to understand the real Bill Clinton as he stumbles and withdraws from the 1988 presidential nomination race but enters it four years later, to make one of the most astonishing bids for the presidency in the twentieth

century: the climax of this gripping political, social, and scandalous journey.

**Canton In Revolution/h** Dec 02 2019 "This volume is a memorial tribute to the late Professor F. Earl Swisher. Born in Lyons, Kansas, July 22, 1902, he was a member of the pioneer generation of American scholars to study China. His early life offered no indication that he would become involved in Chinese studies. At an early age he moved with his family to Palisades, Colorado, where his father owned a farm. There he completed his public education. He was an avid reader as a student, and by the time of his graduation had exhausted the libraries of his teachers and school. He entered the University of Colorado in 1920, majoring in history. Although he received an academic scholarship, he had to work his way through the University.
