Monsoon Mansion Aug 28 2019 Told with a lyrical, almost-dreamlike voice as intoxicating as the moonflowers and orchids that inhabit this world, Monsoon Mansion is a harrowing yet triumphant coming-of-age memoir exploring the dark, troubled waters of a family's rise and fall from grace in the Philippines. It would take a young warrior to survive it. Cinelle Barnes was barely three years old when her family moved into Mansion Royale, a stately ten-bedroom home in the Philippines. Filled with her mother's opulent social aspirations and the gloriously excessive evidence of her father's self-made success, it was a girl's storybook playland. But when a monsoon hits, her father leaves, and her mother's terrible lover takes the reins, Cinelle's fantastical childhood turns toward tyranny she could never have imagined. Formerly a home worthy of magazines and lavish parties, Mansion Royale becomes a dangerous shell of the splendid palace it had once been. In this remarkable ode to survival, Cinelle creates something magical out of her truth--underscored by her complicated relationship with her mother. Through a tangle of tragedy and betrayal emerges a revelatory journey of perseverance and strength, of grit and beauty, and of coming to terms with the price of family--and what it takes to grow up.

The Giving Tree Dec 01 2019 As The Giving Tree turns fifty, this timeless classic is available for the first time ever in ebook format. This digital edition allows young readers and lifelong fans to continue the legacy and love of a classic that will now reach an even wider audience. "Once there was a tree...and she loved a little boy." So begins a story of unforgettable perception, beautifully written and

*illustrated by the gifted and versatile Shel Silverstein. This moving parable for all ages offers a touching interpretation of the gift of giving and a serene acceptance of another's capacity to love in return. Every day the boy would come to the tree to eat her apples, swing from her branches, or slide down her trunk...and the tree was happy. But as the boy grew older he began to want more from the tree, and the tree gave and gave and gave. This is a tender story, touched with sadness, aglow with consolation. Shel Silverstein's incomparable career as a bestselling children's book author and illustrator began with *Lafcadio, the Lion Who Shot Back*. He is also the creator of picture books including *A Giraffe and a Half, Who Wants a Cheap Rhinoceros?*, *The Missing Piece*, *The Missing Piece Meets the Big O*, and the perennial favorite *The Giving Tree*, and of classic poetry collections such as *Where the Sidewalk Ends*, *A Light in the Attic*, *Falling Up*, *Every Thing On It*, *Don't Bump the Glump!*, and *Runny Rabbit*. The Mansion of Happiness Oct 03 2022 Robin Ekiss's meditations on memory and mortality are a canary in the coal mine of imagination. With disembodied dolls, dank Parisian catacombs, the gilded interior of a Fabergé egg, and the unfathomable edge of Niagara Falls as the dominion of these poems, reading Ekiss's work is like peering into the perfectly still world of a diorama or daguerreotype: an experience both uncanny and uncompromising.

Happy at Any Cost Jan 14 2021 From award-winning Wall Street Journal reporters, “a startling portrait of one of our greatest tech visionaries, Zappos CEO Tony Hsieh” (Robert Kolker, author of Hidden Valley Road), reporting on his short life and untimely death and what they mean for our culture’s pursuit of happiness. Tony Hsieh—CEO of Zappos, Las Vegas developer, and all-around beloved entrepreneur—was famous for spreading happiness. He lived and breathed this philosophy, instilling an ethos of joy at his company and outlining his vision for a better workplace in his New York Times bestseller Delivering Happiness. He promoted a workplace where bosses treated employees like family members, where stress was replaced by playfulness, and where hierarchies were replaced with equality and collaboration. His outlook shaped Silicon Valley and the larger business world. Hsieh used his position at work to integrate levity into a normally competitive environment. He aspired to build his own utopian cities, pouring millions of dollars into real estate and small businesses, first in downtown Las Vegas, Nevada—where Zappos was headquartered—and then in Park City, Utah. He gave generously to his employees and close friends, including throwing infamous Zappos parties and organizing gatherings at his home, an Airstream trailer park. When Hsieh died suddenly in November of 2020, the news shook the business and tech world. Wall Street Journal reporters Kirsten Grind and Katherine Sayre quickly realized the importance of the story because of Hsieh’s stature in the industry, but as they dug into the details of his final months, they realized there was a bigger story to tell. They found that Hsieh’s obsession with happiness masked his darker struggles with addiction, mental health, and loneliness. In the last year of his life, he spiraled out of control, cycling out of rehab and into the waiting arms of friends who enabled his worst behavior, even as he bankrolled them from his billion-dollar fortune. Happy at Any Cost sheds light on one of the most venerated, yet vulnerable, business leaders of our time. It’s about our culture’s intense need to find “happiness” at all costs, our misguided worship of entrepreneurs, the stigmas still surrounding mental health, and how the trappings of fame can mask all types of deeper problems. In turn, it reveals how we conceptualize success—and define happiness—in our modern age.

Heiresses Jun 06 2020 New York Times bestselling author Laura Thompson returns with Heiresses, a fascinating look at the lives of heiresses throughout history and the often tragic truth beneath the gilded surface. Heiresses: surely they are among the luckiest women on earth. Are they not to be envied, with their private jets and Chanel wardrobes and endless funds? Yet all too often those gilded lives have been beset with trauma and despair. Before the 20th century a wife’s inheritance was the property of her husband, making her vulnerable to kidnap, forced marriages, even confinement in an asylum. And in modern times, heiresses fell victim to fortune-hunters who squandered their millions. Heiresses tells the stories of these million dollar babies: Mary Davies, who inherited London’s most valuable real estate, and was bartered from the age of twelve; Consuelo Vanderbilt, the original American “Dollar Heiress”, forced into a loveless marriage; Barbara Hutton, the Woolworth heiress who married seven times and died almost penniless; and Patty Hearst, heiress to a newspaper fortune who was arrested for terrorism. However, there are also stories of independence and achievement:

Angela Burdett-Coutts, who became one of the greatest philanthropists of Victorian England; Nancy Cunard, who lived off her mother's fortune and became a pioneer of the civil rights movement; and Daisy Fellowes, elegant linchpin of interwar high society and noted fashion editor. Heiresses is about the lives of the rich, who—as F. Scott Fitzgerald said—are ‘different’. But it is also a bigger story about how all women fought their way to equality, and sometimes even found autonomy and fulfillment.

***The Mansion of Happiness** Nov 04 2022 Renowned Harvard scholar and New Yorker staff writer Jill Lepore has written a strikingly original, ingeniously conceived, and beautifully crafted history of American ideas about life and death from before the cradle to beyond the grave. How does life begin? What does it mean? What happens when we die? “All anyone can do is ask,” Lepore writes. “That’s why any history of ideas about life and death has to be, like this book, a history of curiosity.” Lepore starts that history with the story of a seventeenth-century Englishman who had the idea that all life begins with an egg, and ends it with an American who, in the 1970s, began freezing the dead. In between, life got longer, the stages of life multiplied, and matters of life and death moved from the library to the laboratory, from the humanities to the sciences. Lately, debates about life and death have determined the course of American politics. Each of these debates has a history. Investigating the surprising origins of the stuff of everyday life—from board games to breast pumps—Lepore argues that the age of discovery, Darwin, and the Space Age turned ideas about life on earth topsy-turvy. “New worlds were found,” she writes, and “old paradises were lost.” As much a meditation on the present as an excavation of the past, *The Mansion of Happiness* is delightful, learned, and altogether beguiling.*

***The Conquest of Happiness** Nov 11 2020 *The Conquest of Happiness* is Bertrand Russell’s recipe for good living. First published in 1930, it pre-dates the current obsession with self-help by decades.*

Leading the reader step by step through the causes of unhappiness and the personal choices,

***Empty Mansions** Feb 24 2022 #1 NEW YORK TIMES BESTSELLER NAMED ONE OF THE*

*BEST BOOKS OF THE YEAR BY Janet Maslin, *The New York Times* • *St. Louis Post-Dispatch**

When Pulitzer Prize-winning journalist Bill Dedman noticed in 2009 a grand home for sale,

unoccupied for nearly sixty years, he stumbled through a surprising portal into American history.

***Empty Mansions** is a rich mystery of wealth and loss, connecting the Gilded Age opulence of the*

nineteenth century with a twenty-first-century battle over a \$300 million inheritance. At its heart is a

reclusive heiress named Huguette Clark, a woman so secretive that, at the time of her death at age

104, no new photograph of her had been seen in decades. Though she owned palatial homes in

California, New York, and Connecticut, why had she lived for twenty years in a simple hospital room,

despite being in excellent health? Why were her valuables being sold off? Was she in control of her

fortune, or controlled by those managing her money? Dedman has collaborated with Huguette

Clark’s cousin, Paul Clark Newell, Jr., one of the few relatives to have frequent conversations with

her. Dedman and Newell tell a fairy tale in reverse: the bright, talented daughter, born into a family

of extreme wealth and privilege, who secrets herself away from the outside world. Huguette was the

daughter of self-made copper industrialist W. A. Clark, nearly as rich as Rockefeller in his day, a controversial senator, railroad builder, and founder of Las Vegas. She grew up in the largest house in New York City, a remarkable dwelling with 121 rooms for a family of four. She owned paintings by Degas and Renoir, a world-renowned Stradivarius violin, a vast collection of antique dolls. But wanting more than treasures, she devoted her wealth to buying gifts for friends and strangers alike, to quietly pursuing her own work as an artist, and to guarding the privacy she valued above all else. The Clark family story spans nearly all of American history in three generations, from a log cabin in Pennsylvania to mining camps in the Montana gold rush, from backdoor politics in Washington to a distress call from an elegant Fifth Avenue apartment. The same Huguette who was touched by the terror attacks of 9/11 held a ticket nine decades earlier for a first-class stateroom on the second voyage of the Titanic. Empty Mansions reveals a complex portrait of the mysterious Huguette and her intimate circle. We meet her extravagant father, her publicity-shy mother, her star-crossed sister, her French boyfriend, her nurse who received more than \$30 million in gifts, and the relatives fighting to inherit Huguette's copper fortune. Richly illustrated with more than seventy photographs, Empty Mansions is an enthralling story of an eccentric of the highest order, a last jewel of the Gilded Age who lived life on her own terms.

Skin in the Game Apr 16 2021 #1 NEW YORK TIMES BESTSELLER • A bold work from the author of The Black Swan that challenges many of our long-held beliefs about risk and reward, politics and religion, finance and personal responsibility In his most provocative and practical book yet, one of the foremost thinkers of our time redefines what it means to understand the world, succeed in a profession, contribute to a fair and just society, detect nonsense, and influence others. Citing examples ranging from Hammurabi to Seneca, Antaeus the Giant to Donald Trump, Nassim Nicholas Taleb shows how the willingness to accept one's own risks is an essential attribute of heroes, saints, and flourishing people in all walks of life. As always both accessible and iconoclastic, Taleb challenges long-held beliefs about the values of those who spearhead military interventions, make financial investments, and propagate religious faiths. Among his insights: • For social justice, focus on symmetry and risk sharing. You cannot make profits and transfer the risks to others, as bankers and large corporations do. You cannot get rich without owning your own risk and paying for your own losses. Forcing skin in the game corrects this asymmetry better than thousands of laws and regulations. • Ethical rules aren't universal. You're part of a group larger than you, but it's still smaller than humanity in general. • Minorities, not majorities, run the world. The world is not run by consensus but by stubborn minorities imposing their tastes and ethics on others. • You can be an intellectual yet still be an idiot. "Educated philistines" have been wrong on everything from Stalinism to Iraq to low-carb diets. • Beware of complicated solutions (that someone was paid to find). A simple barbell can build muscle better than expensive new machines. • True religion is commitment, not just faith. How much you believe in something is manifested only by what you're willing to risk for it. The phrase "skin in the game" is one we have often heard but rarely stopped to truly dissect. It is the backbone of risk management, but it's also an astonishingly rich worldview that, as Taleb shows in this book, applies to all aspects of our lives. As Taleb says, "The symmetry of skin in the game is a simple rule that's necessary for fairness and justice, and the ultimate BS-buster," and "Never trust anyone who doesn't have skin in the game. Without it, fools and crooks will benefit, and their mistakes will never come back to haunt them."

*The Subtle Art of Not Giving a F*ck Sep 29 2019 #1 New York Times Bestseller Over 10 million copies sold In this generation-defining self-help guide, a superstar blogger cuts through the crap to show us how to stop trying to be "positive" all the time so that we can truly become better, happier people. For decades, we've been told that positive thinking is the key to a happy, rich life. "F**k positivity," Mark Manson says. "Let's be honest, shit is f**ked and we have to live with it." In his wildly popular Internet blog, Manson doesn't sugarcoat or equivocate. He tells it like it is—a dose of raw, refreshing, honest truth that is sorely lacking today. The Subtle Art of Not Giving a F**k is his antidote to the coddling, let's-all-feel-good mindset that has infected American society and spoiled a generation, rewarding them with gold medals just for showing up. Manson makes the argument, backed both by academic research and well-timed poop jokes, that improving our lives hinges not on our ability to turn lemons into lemonade, but on learning to stomach lemons better. Human beings are flawed and limited—"not everybody can be extraordinary, there are winners and losers in society,*

*and some of it is not fair or your fault." Manson advises us to get to know our limitations and accept them. Once we embrace our fears, faults, and uncertainties, once we stop running and avoiding and start confronting painful truths, we can begin to find the courage, perseverance, honesty, responsibility, curiosity, and forgiveness we seek. There are only so many things we can give a f**k about so we need to figure out which ones really matter, Manson makes clear. While money is nice, caring about what you do with your life is better, because true wealth is about experience. A much-needed grab-you-by-the-shoulders-and-look-you-in-the-eye moment of real-talk, filled with entertaining stories and profane, ruthless humor, *The Subtle Art of Not Giving a F**k* is a refreshing slap for a generation to help them lead contented, grounded lives.*

*River Under the Road Oct 30 2019 From the bestselling, critically acclaimed author of *Man in the Woods* and *Endless Love*, a stunning, stinging portrait of class and creativity-and the double-edged sword of success Thirteen parties over the course of two decades-an opium infused barbeque, a reception for a doomed presidential candidate, a fund-raiser for a blind child who speaks in tongues, a visit to one of New York's fabled sex clubs-brilliantly reveal the lives of two couples, one hoping to be admitted to the kingdom of Art, the other hoping for a small share of the American dream, both driven by forces of history they rarely perceive or acknowledge. Thaddeus Kaufman, the son of booksellers, and Grace Cornell, raised in a basement apartment she longs to escape, meet at a neighborhood art fair in Chicago. Soon after, they head to New York, aloft on the wings of young love. Jennings Stratton, the son of a caretaker, and Muriel Sanchez, the daughter of a cop, meet in a house he is refurbishing in New Mexico, and they, too, head for the big city. In a vast Hudson River estate, the lives of the two couples ultimately intertwine. Thaddeus has made it big in an unexpected way, setting off a chain reaction of envy among his friends and peers and forever changing the dynamic of his marriage with Grace, for whom success has been elusive, and art, once a source of solace, has become a font of bitterness. And Jennings, hoping to transcend his reputation as the local Casanova, a man suited only for menial tasks, has ventured into a cycle of theft and betrayal that threatens to destroy the fragile life of his family. Funny and cutting, affecting and expansive, *River Under the Road* is Scott Spencer's masterpiece of all that lies beneath our everyday lives-a story about the pursuit of love, art, and money, and the inevitable reckoning that awaits us all.*

*The Architecture of Happiness Jan 26 2022 Bestselling author Alain de Botton considers how our private homes and public edifices influence how we feel, and how we could build dwellings in which we would stand a better chance of happiness. In this witty, erudite look at how we shape, and are shaped by, our surroundings, Alain de Botton applies Stendhal's motto that "Beauty is the promise of happiness" to the spaces we inhabit daily. Why should we pay attention to what architecture has to say to us? de Botton asks provocatively. With his trademark lucidity and humour, de Botton traces how human needs and desires have been served by styles of architecture, from stately Classical to minimalist Modern, arguing that the stylistic choices of a society can represent both its cherished ideals and the qualities it desperately lacks. On an individual level, de Botton has deep sympathy for our need to see our selves reflected in our surroundings; he demonstrates with great wisdom how buildings — just like friends — can serve as guardians of our identity. Worrying about the shape of our sofa or the colour of our walls might seem self-indulgent, but de Botton considers the hopes and fears we have for our homes at a new level of depth and insight. When shopping for furniture or remodelling the kitchen, we don't just consider functionality but also the major questions of aesthetics and the philosophy of art: What is beauty? Can beautiful surroundings make us good? Can beauty bring happiness? The buildings we find beautiful, de Botton concludes, are those that represent our ideas of a meaningful life. *The Architecture of Happiness* marks a return to what Alain does best — taking on a subject whose allure is at once tantalizing and a little forbidding and offering*

to readers a completely beguiling and original exploration of the subject. As he did with Proust, philosophy, and travel, now he does with architecture.

Joe Gould's Teeth is a Poe-like tale of detection, madness, and invention. Digging through archives all over the country, Lepore unearthed evidence that "The Oral History of Our Time" did in fact once exist. Relying on letters, scraps, and Gould's own diaries and notebooks—including volumes of his lost manuscript—Lepore argues that Joe Gould's real secret had to do with sex and the color line, with modernists' relationship to the Harlem Renaissance, and, above all, with Gould's terrifying obsession with the African American sculptor Augusta Savage. In ways that even Gould himself could not have imagined, what Gould wrote down really is a history of our time: unsettling and ferocious.

Happiness Nov 23 2021 A huge bestseller in Europe, Frederic Lenoir's Happiness is an exciting journey that examines how history's greatest philosophers and religious figures have answered life's most fundamental question: What is happiness and how do I achieve it? From the ancient Greeks on—from Aristotle, Plato, and Chuang Tzu to the Buddha, Jesus, and Muhammad; from Voltaire, Spinoza, and Schopenhauer to Kant, Freud, and even modern neuroscientists—Lenoir considers the idea that true and lasting happiness is indeed possible. In clear language, Lenoir concisely surveys what the greatest thinkers of all time have had to say on the subject, and, with charming prose, raises provocative questions: · Do we have a duty to be happy? · Is there a connection between individual and collective happiness? · Is happiness contagious? · Is there a difference between pleasure and happiness? · Can unhappiness and happiness coexist? · Does our happiness depend on our luck? Understanding how civilization's best minds have answered those questions, Lenoir suggests, not only makes for a fascinating reading experience, but also provides a way for us to see us how happiness, that most elusive of feelings, is attainable in our own lives.

Oneida Utopia Dec 13 2020 Oneida Utopia is a fresh and holistic treatment of a long-standing social experiment born of revival fervor and communitarian enthusiasm. The Oneida Community of upstate New York was dedicated to living as one family and to the sharing of all property, work, and love. Anthony Wonderley is a sensitive guide to the things and settings of Oneida life from its basis in John H. Noyes's complicated theology, through experiments in free love and gender equality, to the moment when the commune transformed itself into an industrial enterprise based on the production of silverware. Rather than drawing a sharp boundary between spiritual concerns and worldly matters, Wonderley argues that commune and company together comprise a century-long narrative of economic success, innovative thinking, and abiding concern for the welfare of others. Oneida Utopia seamlessly combines the evidence of social life and intellectual endeavor with the testimony of built environment and material culture. Wonderley shares with readers his intimate knowledge of evidence from the Oneida Community: maps and photographs, quilts and furniture, domestic objects and industrial products, and the biggest artifact of all, their communal home. Wonderley also takes a novel approach to the thought of the commune's founder, examining individually and in context Noyes's reactions to interests and passions of the day, including revivalism, millennialism, utopianism, and spiritualism.

Human-Food Interaction Jul 28 2019 Food is not only fundamental to our existence, its consumption, handling or even the mere sight of its also brings us immense joy. Over the years, technology has played a crucial part in supporting and enriching food-related practices, beginning from how we grow, to how we cook, eat and dispose of food. All these practices have a significant impact not only on individuals but also on the surrounding ecologies and infrastructures, often discussed under the umbrella term of Human-Food Interaction (HFI). This monograph provides an overview of the existing research in this space and a guide to further its exploration. The authors illustrate the growth in research across four phases of HFI, namely, Growing, Cooking, Eating and Disposal; categorizing the existing works across each of these phases to reveal a rich design space and that highlights the underexplored areas that interaction designers might find intriguing to investigate. Human-Food Interaction offers a first of its kind overview of research in this fascinating interdisciplinary field and will be of interest to students and researchers working in many areas of Human-Computer Interaction.

Down the Rabbit Hole May 06 2020 The real, untold, and unvarnished story of life inside the legendary Playboy Mansion—and the man who holds the key—from the woman who was Hef’s #1 girlfriend and star of The Girls Next Door. A spontaneous decision at age twenty-one transformed small-town Oregon girl Holly Sue Cullen into Holly Madison, Hugh Hefner’s #1 girlfriend. A Beauty So Rare (A Belmont Mansion Novel Book #2) Feb 12 2021 Pink is not what Eleanor Braddock ordered, but maybe it would soften the tempered steel of a woman who came through a war--and still had one to fight. Plain, practical Eleanor Braddock knows she will never marry, but with a dying soldier's last whisper, she believes her life can still have meaning and determines to find his widow. Impoverished and struggling to care for her ailing father, Eleanor arrives at Belmont Mansion, home of her aunt, Adelia Acklen, the richest woman in America--and possibly the most demanding, as well. Adelia insists on finding her niece a husband, but a simple act of kindness leads Eleanor down a far different path--building a home for destitute widows and fatherless children from the Civil War. While Eleanor knows her own heart, she also knows her aunt will never approve of this endeavor. Archduke Marcus Gottfried has come to Nashville from Austria in search of a life he determines, instead of one determined for him. Hiding his royal heritage, Marcus longs to combine his passion for nature with his expertise in architecture, but his plans to incorporate natural beauty into the design of the widows' and children's home run contrary to Eleanor's wishes. As work on the home draws them closer together, Marcus and Eleanor find common ground--and a love neither of them expects. But Marcus is not the man Adelia has chosen for Eleanor, and even if he were,

someone who knows his secrets is about to reveal them all. From USA Today bestselling author Tamera Alexander comes a moving historical novel about a bold young woman drawn to a group of people forgotten by Nashville society--and to the one man with whom she has no business falling in love.
