Waking Dream Therapy Mar 16 2021 For the past one hundred years, psychotherapy has neglected the inner world of image in favor of words. Now, Dr. Gerald Epstein presents the next evolution in therapy -- Waking Dream. Epstein's approach is brief, effective and powerful. Waking Dream Therapy uses mental imagery to journey inward. The explorer starts from a waking state and via imagination, reenters a night dream fragment to explore the dream. This inner journey reveals new directions and jolts the person to change. The book also contains a history of imagination; instructions for the process; examples of waking dreams; and the meaning of symbols. It appeals both to clinicians and to anyone who seeks self-transformation.

### **Transformational Leadership in Nursing, Second Edition**

Feb 12 2021 This award-winning text guides nursing graduate students in developing the key skills they need to fulfill emerging leadership roles as our health care system experiences profound change and increasing complexity. The book provides a wealth of critical information, practical tools, creative vision, and inspiration that will help to facilitate leadership at the highest level of clinical practice. This second edition is expanded and updated to incorporate leadership challenges resulting from health care reform, changes in the current vision of health care, and innovations that foster leadership development. Two completely new chapters address transformational leadership regarding changing health care perspectives and emerging contexts for health care. The text helps graduate students to master the skills they need to work effectively with interdisciplinary colleagues, address challenges within the confines of budget

constraints, and resolve health care disparities and improve outcomes in all settings. With contributions from expert scholars and clinicians in the humanities, natural and social sciences, organizational studies, business, nursing, and other health care sciences, this inspirational text fulfills the DNP core competencies as described in the American Association of Colleges of Nursing (AACN) Essentials of DNP Education. New to the Second Edition: Updated and expanded to incorporate new leadership challenges resulting from health care reform Expands the scope of leadership to encompass emerging health care contexts, transformation of vision, and practice innovations Includes a new chapter addressing transformative leadership vis-à-vis changing health care perspectives Presents a new chapter describing emerging contexts for health care and how to build a respectful culture in which emerging leaders can thrive Includes updated tools, health care paradigms, and leadership inspiration Presents cases and reflective questions that help students apply the theoretical content to their own situations and generate discussion across cohorts of students Key Features: Written expressly for APRNs transitioning into leadership roles Grounded in competencies and essentials of doctorate education for advanced nursing practice Traces the trajectory from expert clinician to role of leader of complex organizations and patient populations Draws from experts in the humanities, natural and social sciences, business, nursing, and health care

Pale Blue Dot Jan 26 2022 “Fascinating . . . memorable . . . revealing . . . perhaps the best of Carl Sagan’s books.”—The Washington Post Book World (front page review) In

Cosmos, the late astronomer Carl Sagan cast his gaze over the magnificent mystery of the Universe and made it accessible to millions of people around the world. Now in this stunning sequel, Carl Sagan completes his revolutionary journey through space and time. Future generations will look back on our epoch as the time when the human race finally broke into a radically new frontier—space. In *Pale Blue Dot*, Sagan traces the spellbinding history of our launch into the cosmos and assesses the future that looms before us as we move out into our own solar system and on to distant galaxies beyond. The exploration and eventual settlement of other worlds is neither a fantasy nor luxury, insists Sagan, but rather a necessary condition for the survival of the human race. “Takes readers far beyond *Cosmos* . . . Sagan sees humanity’s future in the stars.”—Chicago Tribune

*Brief Answers to the Big Questions* Nov 04 2022 #1 NEW YORK TIMES BESTSELLER • The world-famous cosmologist and author of *A Brief History of Time* leaves us with his final thoughts on the biggest questions facing humankind. “Hawking’s parting gift to humanity . . . a book every thinking person worried about humanity’s future should read.”—NPR NAMED ONE OF THE BEST BOOKS OF THE YEAR BY Forbes • The Guardian • Wired Stephen Hawking was the most renowned scientist since Einstein, known both for his groundbreaking work in physics and cosmology and for his mischievous sense of humor. He educated millions of readers about the origins of the universe

and the nature of black holes, and inspired millions more by defying a terrifying early prognosis of ALS, which originally gave him only two years to live. In later life he could communicate only by using a few facial muscles, but he continued to advance his field and serve as a revered voice on social and humanitarian issues. Hawking not only unraveled some of the universe's greatest mysteries but also believed science plays a critical role in fixing problems here on Earth. Now, as we face immense challenges on our planet—including climate change, the threat of nuclear war, and the development of artificial intelligence—he turns his attention to the most urgent issues facing us. Will humanity survive? Should we colonize space? Does God exist? These are just a few of the questions Hawking addresses in this wide-ranging, passionately argued final book from one of the greatest minds in history. Featuring a foreword by Eddie Redmayne, who won an Oscar playing Stephen Hawking, an introduction by Nobel Laureate Kip Thorne, and an afterword from Hawking's daughter, Lucy, *Brief Answers to the Big Questions* is a brilliant last message to the world. Praise for *Brief Answers to the Big Questions* “[Hawking is] a symbol of the soaring power of the human mind.”—The Washington Post “Hawking’s final message to readers . . . is a hopeful one.”—CNN “Brisk, lucid peeks into the future of science and of humanity.”—The Wall Street Journal “Hawking pulls no punches on subjects like machines taking over, the biggest threat to Earth, and the possibilities of intelligent life in space.”—Quartz “Effortlessly instructive, absorbing, up to the minute and—where it matters—witty.”—The Guardian “This

beautiful little book is a fitting last twinkle from a new star in the firmament above.”—The Telegraph

*Geometrical Landscapes* Feb 01 2020 This challenging book argues that a new way of speaking of mathematics and describing it emerged at the end of the 16th century. Leading mathematicians began referring to their field in terms drawn from the exploration accounts of Columbus and Magellan. Many of those who promoted the vision of mathematics as heroic exploration also played central roles in developing the most important mathematical innovation of the period—the infinitesimal methods, which the author shows was no coincidence.

Voyager On Wheels Oct 03 2022 Voyager on Wheels is a soulful narrative of Muthu Krishnan's life that touches the reader's heart. It compels you to read into the pages of his life, as every chapter unfolds a new period in the life of Muthu. Despite the obstacles that are strewn across his pathways in life, a determined Muthu pursues his dream and supports pour in from unexpected corners. The bond he built

with his family, friends, peers, and colleagues: His perspective on facing the adversities of life is a tight slap on the ego of every person who has been blessed with a life taken for granted. “When life gives you lemons, make a lemonade” is heard quite commonly. He has taken important life-changing decisions at a very tender age and decided to move ahead with them. But do adversities give you the guts to grow or make you look inward? Will a family face the storm of life with the anchor of hope and trust or will they let their sails down?

Spiritual Marketplace Feb 24 2022 In large chain bookstores the "religion" section is gone and in its place is an expanding number of topics including angels, Sufism, journey, recovery, meditation, magic, inspiration, Judaica, astrology, gurus, Bible, prophesy, evangelicalism, Mary, Buddhism, Catholicism, and esoterica. As Wade Clark Roof notes, such changes over the last two decades reflect a shift away from religion as traditionally understood to more diverse and creative approaches. But what does this splintering of the religious perspective say about Americans? Have we become more interested in spiritual concerns or have we become lost among trends? Do we value personal spirituality over traditional religion and no longer see ourselves united in a larger community of faith? Roof first credited this religious diversity to the baby boomers in his bestselling *A Generation of Seekers* (1993). He returns to interview many of these people, now in mid-life, to reveal a generation with a unique set of spiritual values--a generation that has altered our

historic interpretations of religious beliefs, practices, and symbols, and perhaps even our understanding of the sacred itself. The quest culture created by the baby boomers has generated a "marketplace" of new spiritual beliefs and practices and of revisited traditions. As Roof shows, some Americans are exploring faiths and spiritual disciplines for the first time; others are rediscovering their lost traditions; others are drawn to small groups and alternative communities; and still others create their own mix of values and metaphysical beliefs. Spiritual Marketplace charts the emergence of five subcultures: dogmatists, born-again Christians, mainstream believers, metaphysical believers and seekers, and secularists. Drawing on surveys and in-depth interviews for over a decade, Roof reports on the religious and spiritual styles, family patterns, and moral vision and values for each of these subcultures. The result is an innovative, engaging approach to understanding how religious life is being reshaped as we move into the next century.
