35 independent chapters with easily identifiable themes and/or geographical threads, all written by recognised experts in the field. The volume outlines the origins and early developments of Sufism by assessing the formative thinkers and practitioners and investigating specific pietistic themes. The middle period contains an examination of the emergence of the Sufi Orders and illustrates the diversity of the tradition. This middle period also analyses the fate of Sufism during the time of the Gunpowder Empires. Finally, the end period includes representative surveys of Sufism in

several countries, both in the West and in traditional "Islamic" regions. This comprehensive and up-to-date collection of studies provides a guide to the Sufi tradition. The Handbook is a valuable resource for students and researchers with an interest in religion, Islamic Studies and Middle Eastern Studies. of the Uniform Code of Military Justice. It covers the myriad aspects of writing the charges and specifications, analyzing possible defenses, and possible instructions to the court members. Each punitive article is presented separately, followed by a detailed analysis and discussion. Coverage for each article focuses first on the official text of the article, then provides a discussion of the offense, including its history, what the prosecution must prove, applicable case law, and a discussion about possible defenses. For each article, the maximum punishment,

possible lesser-included offenses, sample specifications, and sample instructions from the Military Judges' Benchbook are included. This guide also includes background on the military justice system, coverage of court-martial jurisdiction, and a chapter on defenses, for an all-in-one source on substantive military law.

Part V focuses on the twentieth century and takes into account the diversity of theological movements in the past century as well as extensive philosophical treatment. The final section unpicks contemporary systematic approaches to Aquinas, covering the main
