Following a broad review of the existing literature, the array of eight empirical papers captures the multiple dimensions of aptitude, from personality traits and soft skills such as motivation, anxiety and learning styles to aspects of cognitive performance. The populations studied, with experimental as well as survey research designs, include students and professionals of sign language interpreting as well as spoken-language interpreting, and valuable synergies emerge. While pointing to the need for much further work, the papers brought together in this volume clearly represent the cutting edge of research into aptitude for interpreting, and should prove a milestone on the way toward supplying educators with reliable methods for testing applicants to interpreter training programs. **Investigation of Failure of the SEC to Uncover Bernard Madoff's Ponzi Scheme [electronic Resource]** Jul 01 2022 Contents: (1) Results of the Invest.; (2) SEC Review of 2000 and 2001 Markopolos Complaints; (3) SEC 2004 OCIE Cause Exam. of Madoff; (4) SEC 2005 NERO Exam. of Madoff; (5) SEC 2006 Invest. of Markopolos Complaint; (6) Effect of Madoff's Stature and Reputation on SEC Exam.; (7)

Wall Street and the Financial Crisis: Anatomy of a Financial Collapse (Majority and Minority Staff Report) Sep 10 2020 In the fall of 2008, America suffered a devastating economic collapse. Once valuable securities lost most or all of their value, debt markets froze, stock markets plunged, and storied financial firms went under. Millions of Americans lost their jobs; millions of families lost their homes; and good businesses shut down. These events cast the United States into an economic recession so deep that the country has yet to fully recover. This Report is the product of a two-year bipartisan investigation by the U.S. Senate Permanent Subcommittee on Investigations into the origins of the 2008 financial crisis. The goals of this investigation were to construct a public record of the facts in order to deepen the understanding of what happened; identify some

of the root causes of the crisis; and provide a factual foundation for the ongoing effort to fortify the country against the recurrence of a similar crisis in the future.
