Underwater Cultural Heritage Apr 17 2021 Underwater Cultural Heritage investigates cases of underwater cultural heritage, exploring ethical issues that have never been studied before. A vast cultural heritage lies beneath the sea, including the archaeological remains of more than three million vessels, as well as historic monuments and whole cities. In addition, climate change, population growth and current events around the world mean that new underwater cultural heritage is being created faster than ever before. It is, therefore, essential that the ethical issues related to the management of such heritage are considered now, especially as decisions made now will bestow the heritage with a value and will establish legal frameworks that could be used either to protect or harm underwater heritage in the future. Considering a range of challenges related to underwater cultural heritage - including preservation, management, use, sustainability, valuation, politics, identity, human rights, and intangible heritage - the book presents case studies that both illustrate the key ethical issues and also offer possible solutions to help navigate such challenges. The book will also explore the various legislative instruments protecting underwater cultural heritage and emphasise the importance of revising and updating legal frameworks, whilst also taking into account ethical concerns that may expose cultural heritage to more serious menaces. Underwater Cultural Heritage draws on case studies from around the globe and, as such, should be of great interest to academics, researchers and students working in heritage studies, archaeology, history, politics and sustainability. It should also be appealing to heritage practitioners and policymakers who want to learn more about the issues surrounding not only management of underwater cultural heritage but management of cultural heritage in general.

The Fiddler's Almanac Aug 02 2022

The Music Parents' Survival Guide Oct 31 2019 This book of parent-to-parent advice aims to encourage, support, and bolster the morale of one of music's most important back-up sections: music parents. Within these pages, more than 150 veteran music parents contribute their experiences, reflections, warnings, and helpful suggestions for how to walk the music-parenting tightrope: how to be supportive but not overbearing, and how to encourage excellence without becoming bogged down in frustration. Among those offering advice are the parents of several top musicians, including the mother of violinist Joshua Bell, the father of trumpeter Wynton Marsalis, the parents of cellist Alisa Weilerstein, and those of violinist Anne Akiko Meyers. The book also features advice from music educators and more than forty professional musicians, including Paula Robison, Sarah Chang, Anthony McGill, Jennifer Koh, Jonathan Biss, Toyin Spellman-Diaz, Marin Alsop, Christian McBride, Miguel Zenón, Stephanie Blythe, Lawrence Brownlee, Kelli O'Hara, as well as Joshua Bell, Alisa Weilerstein, Wynton Marsalis, Anne Akiko Meyers, and others. The topics they discuss span a wide range of issues faced by the parents of both instrumentalists and singers, from how to get started and encourage effective practice habits, to how to weather the rough spots, cope with the cost of music training, deal with college and career concerns, and help young musicians discover the role that music can play in their lives. The parents who speak here reach a unanimous and overwhelming conclusion that music parenting is well worth the effort, and the experiences that come with it - from sitting in on early lessons and watching their kids perform onstage to tagging along at music conventions as their youngsters try out instruments at exhibitors' booths - enrich family life with a unique joy in music.
