God the Son, Student Workbook Oct 31 2022 The identity of the person and work of Jesus of Nazareth is arguably the most critical subject in all Christian reflection and ministry. Indeed, it is impossible to minister in the name of the Lord Jesus Christ if that ministry is based upon false and ignoble views of whom he was (and is), what his life signified, and what we are to make of him today. Everything is at stake in our right conception of his life, death, resurrection, ascension, and return. This module highlights his majestic person and deeds, and mastering the biblical material on him is the task of all responsible discipleship and ministry. In this important course we first consider the significance of the Nicene Creed for Christological studies, especially how it frames Christ's work as two movements: his humiliation (i.e., his becoming human and dying on the cross for our sakes) and his exaltation (his resurrection, ascension, and the hope of his return in power). We explore the humanity of Christ and its dual focus: to reveal to us the Father's glory and redeem us from sin and Satan's power. We note key heresies calling into question his human nature, and explore the theological implications of Jesus' humiliation and death, and the various theories of atonement which have sought to explain the meaning of his death for humankind. Finally, we consider aspects of two events which mark the exaltation of Christ, i.e., his resurrection and his ascension to the Father. We close our study by looking at his coming in glory, his judgment of the nations, and his coming reign as King in the Kingdom of God. This is the Student Workbook for TUMI's Capstone Module 10 English course, *God the Son*, which is one of 16 modules in the Capstone Curriculum. This book is intended to be purchased by TUMI satellites, mentors, or site coordinators for use within a TUMI Satellite. The Urban Ministry Institute (TUMI) is a ministry of World Impact, Inc. TUMI Satellites are a part of the TUMI Network, where leaders are developed in the local church using TUMI's curriculum and training system.

Manpower Development: Education and Training. Revised Edition Oct 07 2020

Applications of the Unified Protocol for Transdiagnostic Treatment of Emotional Disorders

Aug 17 2021 Recent conceptualization of anxiety, depressive, and related emotional disorders emphasize their similarities rather than their differences. In response, there has been a movement in recent years away from traditional disorder-specific manuals for the treatment of these disorders and toward treatment approaches that focus on addressing psychological processes that appear to cut across disorders. These transdiagnostic evidence-based treatments may prove to be more cost efficient and have the potential to increase availability of evidence-based treatments to meet a significant public health need. Among clinicians, the Unified Protocol for Transdiagnostic Treatment of Emotional Disorders (UP), developed by Dr. David Barlow and colleagues, is the most recognizable and widely used transdiagnostic treatment protocol with empirical support for its use. *Applications of the Unified Protocol for Transdiagnostic Treatment of Emotional Disorders* provides clinicians with a how to guide for using the UP to treat a broad range of commonly encountered psychological disorders in adults. Each chapter covers a specific anxiety, depressive, or related emotional disorder, and important transdiagnostic processes are highlighted and discussed in relation to treatment. Case studies are employed throughout to illustrate the real-world application of this unique cognitive behavioral protocol and to instruct clinicians in the nuts and bolts of assessment, case formulation, and treatment in accordance with a transdiagnostic perspective.

Cutting Down: A CBT workbook for treating young people who self-harm Jul 28 2022 A quarter of adolescents engage in some form of self-harm and even experienced therapists can find working with these young people difficult. Based on Cognitive Behaviour Therapy (CBT), a highly effective method for working with emotional problems, *Cutting Down* offers a practical and accessible programme for mental health therapists from different professional backgrounds working with young people who self-harm. The programme is comprised of four parts, each covering a specific stage of therapy, and is split into 27 short modules. Although designed to be delivered over a course of 14 sessions, the programme is presented in a way that allows the therapist to decide which combination of specific modules is chosen and how long is spent on each, based on the specific clinical needs of the person they are working with. Throughout the programme, virtual patients are used to illustrate the various exercises and strategies. Part One, *What's Going On?*, introduces self-harm and CBT and aims to develop insight into feelings, problems, goals and the concept of change. Part Two, *Feelings, Thoughts and Behaviour*, looks at working on activities, managing depression and identifying and managing negative thoughts. Part Three, *Coping Strategies*, introduces modules on problem solving, assertiveness, mindfulness and alternatives to self-harm. Part Four, *On You Go!*, finishes up the programme with a review of goals, identifying triggers and developing a 'first aid kit' and a 'tool box' of skills to reinforce the programme. Downloadable worksheets enhance the practicality of the text. Designed to support clinicians working with adolescents engaging in self-harm, this unique workbook is ideal for counsellors, counselling psychologists, clinical psychologists, CBT therapists, IAPT practitioners, CAMHS mental health workers and nurse therapists as well as

students and trainees.
