100 Cases in Psychiatry May 04 2020 The new edition of this best-selling title from the popular 100 cases series explores common psychiatric and mental health scenarios that will be encountered by the medical student and junior doctor during practical training on the ward, in the emergency department, in outpatient clinics and in the community, and which are likely to feature in qualifying examinations. The book covers a comprehensive range of presentations from hallucinations to self-harm, organized by sub-specialty area for ease of reference. Comprehensive answers highlight key take home points from each case and provide practical advice on how to deal with the challenges that occur when practising psychiatry at all levels.

Images of Time Mar 02 2020 What makes history difficult to learn is the fact that one has to travel in time. Studying events and circumstances from a time perspective different from our own is something that doesn't come naturally to people. It is an ability that has to be acquired. This book discusses teaching and learning history from the perspective of passage of time. Time experiences exist in

different shapes and dimensions, one of which is historical time. The specific characteristics of the kind of time are defined in this study, based on philosophical and psychological insights, as well as on theory of history. The differences with other kinds of time, such as daily time and social time, are outlined. Six key concepts of historical time are then defined: chronology, periodization, relics, anachronism, contingency, and generations – meaning a specific way of dealing with the generations of our predecessors. The main issues for teaching historical thinking are described using these six categories. An inventory is made of what is known about them from existing research and what questions still need further investigation. An empirical study is reported about the means students preferably use to orient in historical time: timelines and numbered years attached to events, or imaginative-associative contexts? It is demonstrated that ‘images of time’ are the optimum means for historical orientation. An historical consciousness of time is essential to an open democratic society. The one-dimensional perspective of the present is broken up, it is shown that alternatives are possible, that the present is only the coincidental result of a contingent development and might have been totally different, and that the views held by people have changed, may change now and certainly will change in the future. All of this can enhance tolerance, open-mindedness and promote a healthy societal debate. This study provides insights into the kind of history teaching that might be helpful in developing this.

Stigma from the Past May 28 2022 Something from the past was destined to haunt her for a very long time. Mercy, a compassionate nun and an orphan, quits the nunnery in Ghana after receiving a vision for a calling outside the convent. Mercy launches into a new life in her homeland of Nigeria, which is rife with poverty, pain, harassment, loneliness and gender prejudice, as well as abuse, betrayal, murder, revenge, blackmail and decadence. Possessing such qualities as determination, courage, sacrifice, perseverance and faith, Mercy surmounts many obstacles to become a career-oriented counselor. Her work is everything, until she meets and marries Nick, a dashing multi-millionaire widower. This spellbinding novel is complete with lessons on resilience, irony and the audacity of hope. It is also an intriguing thriller, fraught with idiosyncrasies and providence. *Stigma from the Past* shows that this is indeed a small world, where we are some way or the other related, and the person you plan to destroy just might be your own flesh and blood.

The Middle Ages in Popular Imagination Oct 09 2020 It is often assumed that those outside of academia know very little about the Middle Ages. But the truth is not so simple. Non-specialists in fact learn a great deal from the myriad medievalisms - post-medieval imaginings of the medieval world - that pervade our everyday culture. These, like *Lord of the Rings* or *Game of Thrones*, offer compelling, if not necessarily accurate, visions of the medieval world. And more, they have an impact on the popular imagination, particularly since there are new medievalisms constantly being developed, synthesised and remade. But what does the public really know? How do the conflicting medievalisms they consume contribute to their knowledge? And why is this important? In this book, the first evidence-based exploration of the wider public's understanding of the Middle Ages, Paul B. Sturtevant adapts sociological methods to answer these important questions. Based on extensive focus groups, the book details the ways - both formal and informal - that people learn about the medieval past and the many other ways that this informs, and even distorts, our present. In the process, Sturtevant also sheds light, in more general terms, onto the ways non-specialists learn about the past, and why understanding this is so important. *The Middle Ages in Popular Imagination* will be of interest to anyone working on medieval studies, medievalism, memory studies, medieval film studies, informal learning or public history.

The New Examination System - GCSE Jun 16 2021 Reform of the public examination system for sixteen-year-olds presented a considerable challenge to secondary schools. The new General Certification of Secondary Education, introduced in 1988, was more than a continuation of the G.C.E. 'O' level and C.S.E. examinations at the time. The introduction of national criteria by the Department of Education, the part played by the Secondary Schools Examination Council, the emergence of new examining bodies were new dimensions faced by schools accustomed to exercising considerable autonomy in designing a curriculum. How far would the new examination reflect what was actually taught in our classrooms? What were its new features? Which pupils would be entered, and with what prospect of success? Above all, how would schools meet a tight time schedule, which required study of new syllabuses to be ready by 1986 for the first examinations held in 1988? Originally published in 1986 this book was intended to answer some of these questions and provide an up-to-date picture of the present state of the examination world, with indications of future developments in the vital years ahead. It aimed to assist those immediately and urgently concerned with implementing this far-reaching educational reform. Today it can be considered in its historical context.

Class Choreographies Feb 22 2022 Awarded Best Book prize by CIES Globalization and Education SIG Awarded 2nd Prize in the Society of Educational Studies Annual Book Prize Elite schools have always been social choreographers par excellence. The world over, they put together highly dexterous performances as they stage and restage changing relations of ruling. They are adept at aligning their social choreographies to shifting historical conditions and cultural tastes. In multiple theatres, they now regularly rehearse the irregular art of being global. Elite schools around the world are positioned at the intersecting pinnacles of various scales, systems and regimes of social, cultural, political and economic power. They have much in common but are also diverse. They illustrate how various modalities of power are enjoyed and put to work and how educational and social inequalities are shaped and shifted. They, thus, speak to the social zeitgeist. This book dissects this intricate choreography.

Growing Up, Growing Old Feb 10 2021 Growing Up, Growing Old presents a memoir of interesting life events peppered with insights from author Azubike Uzoka's vast clinical experience and extensive travels. He has traveled extensively in Africa, Europe, the Americas, the Caribbean, and several other

countries. Dr. Uzoka was born in Nigeria but later studied and worked in the United States. A lover of nature, he muses in appreciation over the contradictions in life, and yet he has a romance with living, whatever the circumstances may affect his life. He focuses on understanding the significant nuances of his Igbo culture, in which issues like reincarnation, sex, roles, and other social questions are discussed considering the nuances of life in a new globalized world. Witty and often downright funny, *Growing Up, Growing Old* offers his life story and philosophy presented in an easy-to-read, unassuming style. Whether the narrative focuses on love, marriage, death, prejudice, or some plain human folly, it is laced with lyrical poetry about womanhood, nature, and other themes.

Peace at Last in Paradise Jan 12 2021 In this volume Guruge returns to present us with a spellbinding sentimental story that displays the full range of human emotions. A story born of tragic circumstances of the demise of the World Trade Center, encompasses all the strains of race and class that pervaded through the fabric of Sri Lankan society in recent times. It is transformed into an engaging story by the author's exceptional wit, sensitivity and sharp social observation. Author also returns to offer the reader with fascinating verse that brings to life people, events, places and emotions that are vividly presented in the book. Through out his trilogy, Guruge has demonstrated the value of recording recent history that is mostly oral or confined to individual experiences. In volume three, he has set out, meticulously, and in great detail, the history of the period 1915 to 2009. The more recent part of history, is largely based on his own exceptional knowledge and experience, and recorded as only a true historian -- an accolade he richly deserves, can document. What is fascinating is that he narrates Sri Lankan history within a compelling story of a multiethnic Sri Lankan family.
