The Story of Jane Jul 28 2019 The powerful story of the women who founded and ran the legendary Chicago reproductive rights organization Abortion Counseling Service, otherwise known as Jane, written by one of its members. A compelling testament to a woman's most essential freedom—control over her own body—and to the power of women helping women. • Also the subject of the acclaimed HBO documentary The Janes. The Story of Jane recounts the evolution of the Abortion Counseling Service, code name Jane, the underground group of heroic women that provided low-cost abortion services in Chicago in the years before the procedure was legalized. Organized in 1969 and active until the opening of the first legal abortion clinics in 1973, Jane initially counseled women and referred them to abortion providers who set prices and conditions. As Jane grew, so did the group's capacity to protect its clients. Eventually, determined to reclaim women's reproductive

power in any way they were able, many members of Jane learned to perform abortions themselves. An extraordinary history by one of Jane's members, The Story of Jane is an urgent account of the organization's development, the conflicts within the group, and the impact its work had on both the women it helped and the members themselves.

Stories of Your Life and Others Feb 24 2022

From the author of *Exhalation*, an award-winning short story collection that blends "absorbing storytelling with meditations on the universe, being, time and space ... raises questions about the nature of reality and what it is to be human" (The New York Times). *Stories of Your Life and Others* delivers dual delights of the very, very strange and the heartbreakingly familiar, often presenting characters who must confront sudden change—the inevitable rise of automatons or the appearance of aliens—with some sense of normalcy. [The Story of My Life](#) Nov 11 2020 When she was 19 months old, Helen Keller (1880–1968) suffered a severe illness that left her blind and deaf. Not long after, she also became mute. Her tenacious struggle to overcome these handicaps — with the help of her inspired and inspiring teacher, Anne Sullivan — is one of the great stories of human courage and dedication. *The Story of My Life*, first published in 1903, is Helen Keller's classic autobiography detailing the first 22 years of her life, including the magical moment at a water pump when, recognizing the connection between the word "water" and the cold liquid flowing over her hand, she realized that objects had names. She had many experiences which were equally thrilling and noteworthy including her joy at eventually learning to speak so that by the time she was 16, she could speak well enough to

attend preparatory school followed by her education at Radcliffe, from which she graduated cum laude, and of course, her extraordinary relationship with Miss Sullivan who had shown a remarkable gift and genius for communicating with her eager and quick-to-learn pupil. Keller also writes of her friendships with Oliver Wendell Holmes, Edward Everett Hale and other notables. Keller first began to write *The Story of My Life* in 1902, when she was still a student at Radcliffe College. The book is dedicated to inventor Alexander Graham Bell, and the dedication reads, "To ALEXANDER GRAHAM BELL Who has taught the deaf to speak and enabled the listening ear to hear speech from the Atlantic to the Rockies, I dedicate this Story of My Life."

"Hope Jahren is the voice that science has been waiting for." —Nature Hope Jahren is an award-winning scientist, a brilliant writer, a passionate teacher, and one of the seven billion people with whom we share this earth. In *The Story of More*, she illuminates the link between human habits and our imperiled planet. She explains the current and projected consequences of global warming—from superstorms to rising sea

levels—and the actions that we all can take to fight back. At once an explainer on the mechanisms of global change and a lively, personal narrative given to us in Jahren's inimitable voice, *The Story of More* is "a superb account of the deadly struggle between humanity and what may prove the only life-bearing planet within ten light years" (E. O. Wilson).

The Story of My Teeth Jul 20 2021 "Luiselli follows in the imaginative tradition of writers like Borges and Márquez, but her style and concerns are unmistakably her own. This deeply playful novel is about the passion and obsession of collecting, the nature of storytelling, the value of objects, and the complicated bonds of family. . . Luiselli has become a writer to watch, in part because it's truly hard to know (but exciting to wonder about) where she will go next."—The New York Times I was born in Pachuca, the Beautiful Windy City, with four premature teeth and my body completely covered in a very fine coat of fuzz. But I'm grateful for that inauspicious start because ugliness, as my other uncle, Eurípides López Sánchez, was given to saying, is character forming. Highway is a late-in-life world traveler, yarn spinner, collector, and legendary auctioneer. His most precious

possessions are the teeth of the "notorious infamous" like Plato, Petrarch, and Virginia Woolf. Written in collaboration with the workers at a Jumex juice factory, *Teeth* is an elegant, witty, exhilarating romp through the industrial suburbs of Mexico City and Luiselli's own literary influences. Valeria Luiselli was born in Mexico City in 1983 and grew up in South Africa. Her work has been translated into many languages and has appeared in publications including the New York Times, Granta, and McSweeney's. The authors explain how the first living cell was created, and how the cells multiply and create jellyfish and worms, and then fish with bendy

necks, which drag themselves out of the water into swampy forests. They tell the story of the biggest creatures that have ever walked on land - the dinosaurs. Long after that, hairy creatures who have babies, not eggs, take over, stand on two legs and spread around the world, some of them living through cataclysmic events such as ice ages and volcanic eruptions.
